

What is Agriculture?

- The practice of farming, including cultivation of the soil for the growing of crops and the rearing of animals to provide food, wool, and other products.
- Agriculture is the cultivation of animals, plants and fungi for food, fiber, bio fuel, medicinal and other products used to sustain and enhance human life.

AGRICULTURE IN INDIA

India is the world's largest producer of many fresh fruits like banana, mango, guava, papaya, lemon and vegetables like chickpea, okra and milk, major spices like chili pepper, ginger, fibrous crops such as jute, staples such as millets and castor oil seed. India is the second largest producer of wheat and rice, the world's major food staples.

AGRICULTURE IN SPAIN

Spain has long been Western Europe's leading producer, and the world's foremost exporter, of oranges and mandarins. Grapefruit, lemons, and limes were also grown in quantity.

The principal vegetable crops were potatoes, tomatoes, onions, cabbages, peppers, and string beans.
