

HOW TO READ DECIMALS IN ENGLISH!

1 2 3 4 . 5

- In the decimal numeral system, a unit of any place value is divided into ten units of the place value immediately below.

$$1 \text{ U} = 10 \text{ t} = 100 \text{ h} = 1\,000 \text{ th} = \dots$$

- To read a decimal number:
 - First, read the integer in units.
 - Then, read the decimal place expressed in the place value of the units of the decimal figure to the right.
