# CLEAN ENERGY IN INDIA

1. India is the world's 3rd largest consumer of electricity and world's 3rd largest renewable energy producer with 38% of energy capacity coming from renewable sources.
2. India is ranked 3rd behind the US and China.
3. India plans to produce 50% of its total electricity from clean energy sources by 2030.
4. India is the 5th globally for hydroelectric energy.
5. Solar power is the highest used energy source in India.

# QUESTIONS

- Where does India rank globally in terms of hydroelectric energy?

A. 7th	B. 5th
C. 8th	D. 10th

- Which is the highest used energy source in India?

A. Solar power	B. Nuclear power
C. Wind power	D. None of the above

- Where does India rank globally in terms of renewable energy producers?

A. 12th	B. 6th
C. 7th	D. 3rd

- How much percentage of electricity does India plan to produce from clean energy sources by 2030?

A. 25%	B. 70%
C. 50%	D. 40%
