

# EASTER

**Easter is a Christian holiday celebrating the resurrection of Jesus Christ. Easter is held on the first Sunday after the full moon in March, which is why Easter can land anywhere between the 22nd of March and the 25th of April.**

The holiday's name is actually derived from a "goddess" named Eastre. She was the symbol of the [rabbit](#) and the egg. This symbolism is fitting for a holiday that signifies rebirth.

**The myth of the Easter Bunny actually dates back to an old German tale about a woman who used to decorate eggs and leave them for her children to find. This story was based in a time when a famine was plaguing the land; therefore the eggs were considered a valuable and surprising gift. It is reported that as her children found the eggs they saw a bunny rabbit hopping away. Naturally, the children thought the bunny had left the eggs for them!**

Each year witnesses the making of nearly 90 million chocolate bunnies. In the catalogue of kids' favorite Easter candy, red jelly beans come in first place. Next to [Halloween](#), Easter is the biggest holiday for the sale of candy. When it comes to eating chocolate bunnies, it is the ears that are preferred to be eaten first by as many as 76% of people.
